LIGHT CANADA Expo & Conference

With the support of IES Toronto Chapter and key members of the lighting industry, the successful lighting show & conference that launched at IIDEX/NeoCon Canada 2007 will be expanded for 2008. LIGHT CANADA is located as an exposition within IIDEX/NeoCon Canada and offers a lighting keynote, dedicated seminar stream presented by industry leading experts, learning labs & tours, special lighting feature areas, a light café, an awards program for lighting products and a travel subsidy for lighting designers and engineers from across Canada. The Canadian Regional IES Conference and the IES Toronto Gala will also happen at IIDEX 2008. IIDEX attracts 400 exhibitors in all areas of design and 15,000 architects, interior designers, facility managers, builders and developers from across Canada and the bordering states and now includes the key attendance of lighting designers and electrical engineers.
