

MATERIAL WORLD

Material World offers a cost effective and streamlined solution to access over 15,000 architects, interior designers, facility managers, engineers, builders, developers and business specialists from across Canada and the bordering states.

Material World comprises of mixed sized booths, featuring small turn-key spaces, where exhibitors can showcase their product innovations and cutting-edge materials including wood, plastic, glass and metal.

Extraordinarily popular, Material World also includes a seminar program, an innovation keynote speaker and **THINK:Material**, a curated exhibit of new innovative materials from around the world. It is the place to engage in discovery and discussion with design specialists.
